## Problem:

I insert the Edimax CD disc in Windows 8 computer. I run the Autorun.exe.

Click on Setup Wizard in menu. Later Windows 8 gives me an error message like this

## Solution:

If you see the prompt, choose "Open folder to view files"

DVD	RW Drive (E:) EW-722
Choose	what to do with this disc.
Install	or run program from your media
ð	Run Autorun.exe Published by Edimax Technology CO., LTD
Other	choices
r)	Open folder to view files File Explorer
$\otimes$	Take no action

If you do not see the prompt, click on the Yellow Folder in the system tray.

Select your CD/DVD drive on the left menu. You can view the folders and files on the right menu.

Double click on the Setup Wizard folder.
